

Notice of Proposed No Further Action

For

Former Sutter Hospital
3325 Chanate Road
Santa Rosa, California

Case Number 1TSR471

Sonoma County

Notice Posting Date: December 28, 2020

End of Comment Period: February 26, 2021

A soil and groundwater investigation was conducted at the above-referenced site and a release of petroleum hydrocarbons was documented. Although some contamination remains, this site meets the conditions for closure under the State Water Resources Control Board's "Low-Threat Underground Storage Tank Case Closure Policy." Regional Water Board staff proposes that no further work be required. The purpose of this notice is to inform interested parties, including owners of nearby land, that the case is being considered for closure, and to invite public comment on this proposed decision.

Problem Description

A previous underground storage tank fuel system, removed in October 2020, released diesel to soil and groundwater at this site. Soil and groundwater at and around the site have been investigated. Groundwater sampling at the site has shown contamination in groundwater in the immediate vicinity of the former UST, but the contamination is not spreading. No water supply wells were impacted by this contamination.

Proposed Action

Case closure is proposed. This site meets the conditions for closure under the State Water Resources Control Board's "[Low-Threat Underground Storage Tank Case Closure Policy](#)."

Unless significant comments are received or new information is presented regarding this site, Regional Water Board staff plans to proceed with the closure process upon conclusion of the comment period. Please contact Paul Nelson at (707) 576-2686 or Paul.Nelson@waterboards.ca.gov with any questions or comments. Written comments may also be submitted to:
